Other than associates and project managers there are a series of continuous co-workers in function of the projects and the support of reliable partners in the following fields:

Structural design and testing	Guido Veltri, Engineer
Electrical systems design:	Fabrizio Peruzzi, Engineer
Thermal and hydraulics systems design:	Paolo Coppi, Engineer
Surveys and Land registry filing	Alessio Salvadori, Geologist
Geological surveys	Elisa Giommarelli, Geologist
Planning and management of workplace safety	Michela Metri, Architect

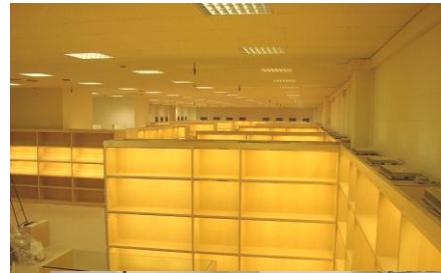

ACTIVITIS FIELDS

Supervision and Project management:

1. supervision, accounting and project control
2. organization and management of real estate projects and job supervisor for building activities
3. control of accomplishment timing, costs and quality of the project
4. project responsibility for public and private plans

The references in these areas are established by the activities of:

- ❑ Carrying out the role of project manager for construction, start-up and organization and maintenance of job orders for establishments, offices, warehouses, shops, outlets and company headquarters of prime fashion companies (Prada Group, Fendi Group)
- ❑ project planning and supervision for public administrations and private companies (Celine Production S.r.l., Municipality of Abbadia San Salvatore, Municipality of Chianciano Terme, Municipality of Rome, Fendi S.r.l., Bulgari Group, LVMH Italia S.r.l., Italian Navy, Sapio S.r.l., National Health Association of Siena, etc.)

Safety management:

Consultancy for the carrying out of workplace hygiene and safety laws (D.Lgs. 626/94) and safety of mobile and temporary construction sites (D. Lgs. 494/96).

1. Fullfilment of the role as Health & Safety Manager.
2. Qualification as HSE Coordinator during the design and construction phases of mobile and temporary construction sites.
3. Organization and management of workplace safety improvement projects.
4. Fire prevention planning and qualification for the Ministry of Local Affairs as fire Prevention Expert

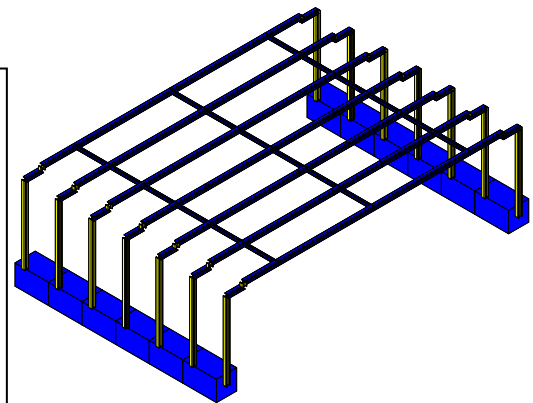

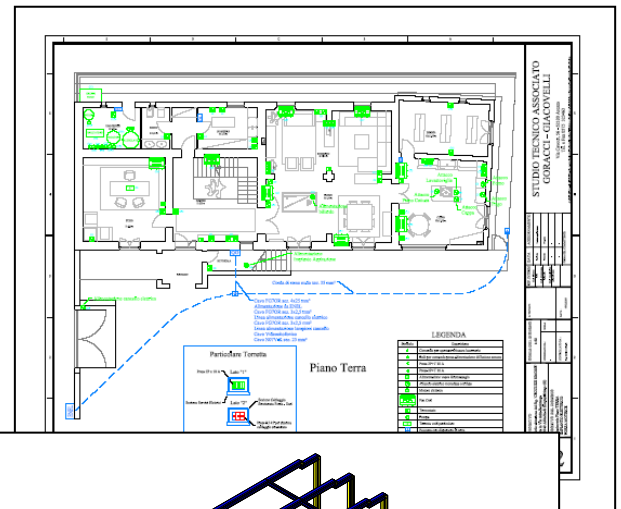

The references in this area are established by activities carried out for:

- ❑ HSE Coordinator during the design and construction phases of sites of the Fendi Group, Prada Group, and on charge of public administration and private customers (Celine Production S.rl., Municipality of Abbadia San Salvatore, Municipality of Chianciano Terme, Comune di Roma, Dioceses of Arezzo, Cortona and Sansepolcro, Fendi S.r.l., Bulgari Group, LVMH Italia S.r.l., Italian Navy, Sapio S.r.l., National Health Association of Siena,, ecc.)
- ❑ Carrying out the charge of workplace Health & Safety Manager for Fendi Group, Prada Group, the Dioceses of Arezzo, Cortona and Sansepolcro, and medium size firms in the provinces of Siena, Arezzo and Firenze
- ❑ Fire prevention surveys and planning in accordance with the Fire Prevention Certificate, for the valuation of workplace risk factors and the redaction of emergency and evacuation procedures
- ❑ Carrying out of training courses as by safety law D. Lgs. 626/94 and other laws applicable in manner of workplace Health & Safety and as by D.M. 10/3/98 in matter of fire safety

Systems and structural planning

Activities coordinated by the engineer Stefano Goracci with the completion of planning and realization of project management and testing for plans by public administrations and private companies (Celine Production S.rl., Municipality of Abbadia San Salvatore, Municipality of Chianciano Terme, Comune di Roma, Dioceses of Arezzo, Cortona and Sansepolcro, Fendi S.r.l., Bulgari Group, LVMH Italia S.r.l., Italian Navy, Sapio S.r.l., National Health Association of Siena, etc.)

Light Design:

1. Illumination engineering planning for insides and outdoors

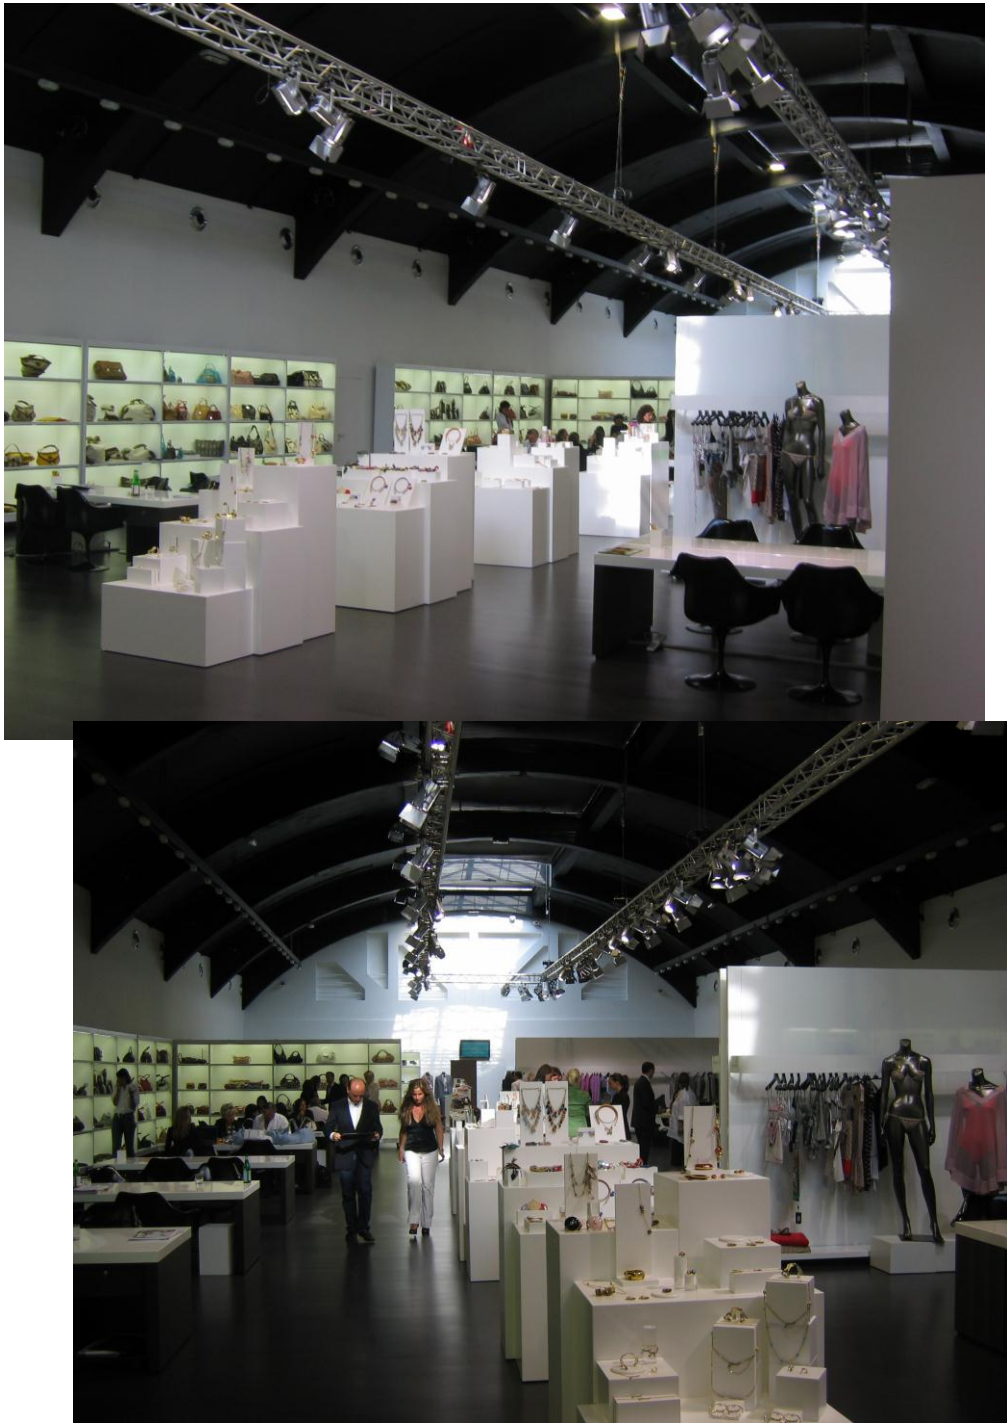

Activities coordinated by the engineer Maria Concetta Giacobelli for the planning and validation of illumination solutions for artistic, architectural and illuminotechnic projects.
